

INTERNSHIP PROJECT REPORT

On

C AND C++ DEVELOPMENT

Submitted by

G. INDU

BACHELOR OF TECHNOLOGY

In

ELECTRONICS AND COMMUNICATION ENGINEERING

MALLA REDDY ENGINEERING COLLEGE

Submitted in partial fulfillment of the requirements

for the completion of internship

at

GROWFINIX

Under the Guidance of

Growfinix Team

June – 2026

CERTIFICATE

This is to certify that Ms. G. INDU has successfully completed the internship project report on “**C AND C++ DEVELOPMENT**” submitted to **Growfinix** during the internship period.

The work submitted by the student is genuine and completed successfully under the guidance and support of the **Growfinix Team**.

This internship report is submitted in partial fulfillment of the internship program requirements.

Date:

Growfinix Team

Student Signature

G. INDU

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Growfinix for providing me the opportunity to undergo the internship on “C AND C++ DEVELOPMENT”.

I am thankful to the Growfinix Team for their valuable guidance, support, and encouragement throughout the internship.

I also extend my gratitude to my faculty members, friends, and family members for their continuous support and motivation during the completion of this internship project report.

Finally, I would like to thank everyone who directly or indirectly helped me in completing this internship successfully.

G. INDU

TASK 3: FINAL PRESENTATION & SUMMARY

1. Internship Overview

The Growfinix Internship provided valuable practical experience in software development using C++. During the internship, multiple projects were designed, developed, tested, and documented. The internship enhanced programming skills, problem-solving abilities, and project management knowledge.

2. Objectives of the Internship

- To gain practical exposure to software development.
- To improve programming and logical thinking skills.
- To understand project development life cycles.
- To develop documentation and reporting skills.
- To enhance problem-solving and debugging abilities.

3. Projects Completed

Project 1: Employee Record Management System

A system developed to manage employee information including adding, updating, searching, and deleting employee records.

Project 2: Bank ATM Simulation

A banking application that simulates ATM operations such as balance inquiry, cash withdrawal, and deposit transactions.

Project 3: Inventory Management System

A software solution used to manage inventory records, product details, and stock information.

Project 4: Student Grading System

A system that calculates student percentages and automatically generates grades based on performance.

Project 5: To-Do Task Manager

An application designed to manage daily tasks by allowing users to add, update, complete, and delete tasks.

4. Technologies Used

- C++
- Object-Oriented Programming (OOP)
- File Handling
- Visual Studio Code
- GitHub

5. Skills Acquired

Technical Skills

- C++ Programming
- Object-Oriented Programming
- File Handling
- Debugging
- Software Development

Professional Skills

- Time Management
- Documentation
- Communication
- Problem Solving
- Analytical Thinking

6. Challenges Faced

- Understanding advanced C++ concepts.
- Debugging logical errors.
- Managing project documentation.
- Organizing project files efficiently.

7. Solutions Implemented

- Regular coding practice.
- Systematic debugging techniques.
- Proper project planning.
- Continuous learning and research.

8. Results and Achievements

- Successfully completed all assigned internship projects.
- Improved programming and software development skills.
- Learned project documentation and GitHub usage.
- Gained practical experience in real-world application development.
- Enhanced confidence in problem-solving and coding.

9. Internship Summary

The internship provided an excellent opportunity to apply theoretical knowledge in practical situations. Through project development and documentation activities, significant improvement was achieved in programming, debugging, and project management skills.

10. Conclusion

The Growfinix Internship was a valuable learning experience that contributed to both technical and professional growth. The projects completed during the internship strengthened software development skills and provided practical exposure to real-world programming challenges. The knowledge and experience gained will be beneficial for future academic and professional endeavors.
